UNABLE TO LOCATE MAUSOLEUM GHOULS

Relatives May Offer Reward for
Return of Stolen Body.

Erie, Pa., Feb. 10.—A vigorous search has failed to uncover a single clue to the identity of the ghouls who sometime in the last four days desecrated the mausoleum in the Erie cemetery of the late Congressman William L. Scott, millionaire railroad magnate, and carried away the body of his sister-in-law, Mrs. Anna M. McCollum.

An investigation of the vault has shown conclusively that the ghouls were persons familiar with the work undertaken. When the copper plates in front of the crypts were torn away a sharp hooked instrument was run into the crypt and the name plates pulled from the caskets. This had led to the belief that the robbers were looking for the casket of Mrs. McCollum. Besides her body there were five others in the vault and the caskets of all had been tampered with.

It is reported that the Strong family is contemplating the announcement of a large reward for the recovery of Mrs. McCollum's body. The cemetery officials have offered a reward of \$1,000.

TWO AVIATORS KILLED

Noel and Delatorre Crushed by Fall During Military Trial.

Donal, France, Feb. 10.—Two more names were added to the death roll of the aeroplane. The aviators, Noel and Delatorre, were killed while conducting a trial of a military aeroplane before experts from the war department previous to its delivery to the army. Noel was the pilot and Delatorre a passenger.

According to the requirements of the department, Noel put the machine through its paces for an hour, and the trial, which was considered in every way successful, was practically at an end. The aviators were planing down from a height of about 250 feet, when suddenly the wings folded up and the machine fell headlong to the earth.

The two men were taken out dead. Their skulls were fractured and they were badly crushed.

A Powerful Preacher Now Conducting a Series of Meetings in M. E. Church South

REV. JOHN B. ANDREWS.

Whose Preaching is "Practical and Pointed" and "Punctuated With Startling Epigrams."

Rev. John B. Andrews, the evangelist who is holding the revival services at the M. E. church, South, is a Tennesseean by birth, an Alabamian by rearing and is now a citizen of Siloam Springs, Ark.

He tells us that his family consists of one wife and seven children—all boys but six. He spent his young manhood in the railway service, which gave him fine opportunity for the study of human nature, and was therefore a training school for his present work.

He entered the North Alabama conference seventeen years ago, and immediately began evangelistic work. He has led 30,000 people to accept the Bible standard of living, 2,000 of that number during the past year. He has held successful meetings in many southern cities, such as Houston, Dallas and Fort Worth, Texas; Little

Rock, Hot Springs and Arkadelphia, Ark.; Kansas City and St. Louis, and the last meeting in which he was engaged, at Booneville, Mo., was eminently successful.

His preaching is practical and pointed, being frequently punctuated with startling epigrams; but at times he grows eloquent, when his word pictures become beautiful and his denunciations of sin terrific.

His sermon Thursday night on "David's Sin" was a heart-searching and conscience-quickenng discourse, calculated to do much good.

The Thursday night congregation was much larger than heretofore on account of the ending of the murder trial which has so agitated the public mind and it is now expected that Evangelist Andrews will have a hearing worthy of his ability and reputation during the remainder of this meeting.

Sit Down

Why not sit down? You can, if you use a Sharples Dairy Tubular Cream Separator. Tubulars run so lightly that a child can easily turn them. You can easily turn a medium size Tubular while sitting. That's because Dairy Tubular bowls are only half as heavy as others and have but one bearing where other bowls have several.

Save Your Back

Avoid lifting. You can, if you use a Sharples Dairy Tubular Cream Separator. The top of the supply can on the largest Dairy Tubulars is only three feet three inches above the floor, and less on the smaller sizes. Easy to fill—steady—and you don't need to lift off the can to take the machine apart or put it together.

No Separator, except the Sharples, has this advantage. Tubulars are far ahead of all other separators in easy operation, durability and fine work. You'll like Tubulars—inside and out. Bring the wife with you and look them over.

BEVERIDGE FIRES OPENING GUN

Fight for Approval of Reciprocity Treaty Begins in Senate.

VITAL PRINCIPLE IS INVOLVED.

Details, Indiana Senator Says, Are of Little Significance and Can Be Adjusted in Light of Future Experience—Mistakes Easily Corrected.

Washington, Feb. 10.—The first gun in the congressional battle over Canadian reciprocity was fired in the senate.

Senator Beveridge (Ind.), an insurgent, was the marksman, and he lined up on the side of the administration. He did not make a pretense of representing others of the progressive Republican camp.

Beveridge welcomed the compact as the first concrete evidence of the establishment of such relations with Canada as, he thought, the United States would maintain with a country so closely adjoined physically and with a people so intimately allied with Americans in kinship and interest. Contending for the importance of the principle involved, he urged the necessity for prompt and decided action.

The details, he said, were of comparatively little significance and might well be left to future adjustment.

Friendship Instead of Hostility. "Shall the United States and Canada begin the policy of mutual trade concessions and commercial friendliness? Or shall we make permanent the policy of trade obstruction and commercial hostility between the countries?"

Thus asking, Beveridge said these were the real questions which must be answered in dealing with the reciprocal agreement. His general position was then announced as follows:

"If some think that the agreement is not all that it should be because of the treatment of a few articles, the answer is that even if this objection is sound as to those few details, yet it is negligible when compared with the importance of getting this great national policy established."

Mistakes Easily Corrected. "If the agreement is enacted into law and proves beneficial to the nation as a whole, it is certain to be extended as time goes on and the two peoples experience its good effect. If, on the other hand, it should prove harmful to the nation as a whole it could be repealed quickly."

"We do not need to protect our people from the Canadian people. What we need is to make it easier for Canada to freely buy from us the things it needs and that we produce. What we need is to make it easy for our people to buy from Canada those things which our people need instead of making it hard for them to do so."

Argument was then presented to show that the natural resources of Canada might be depended on to reduce the cost of living in this country and to replenish the loss suffered by the premature destruction of American resources.

WILSON REPLIES TO GRANGE

Secretary of Agriculture Answers Argument Against Reciprocity.

Washington, Feb. 10.—"The pending reciprocity treaty with Canada will go some distance towards meeting the demands of the people at the last election without interfering with the policy of protection as applied to the whole world." This is the conclusion of James Wilson, secretary of agriculture, in an answer on behalf of the Taft administration to the National Grange's declared opposition to the proposed agreement.

The answer is in the form of an open letter made public, addressed to the legislative committee of the National Grange, Concord, N. H.

Secretary Wilson argues that the cost of production in the United States and Canada is more nearly identical than it is between the United States and any other country, that the same difficulties with regard to farm labor exist on both sides of the international line and that Canadian and American farming methods are virtually the same.

COMMONS DEBATES TREATY

Amendment Urging Fiscal Reform Is Voted Down, 324 to 222.

London, Feb. 10.—The amendment to the address in reply to the speech from the throne, introduced in the house of commons by Austen Chamberlain, urging fiscal reforms, with special reference to the proposed reciprocity amendment, was rejected by a vote of 324 to 222. The laborites and the nationalists voted with the government.

Anti-Reciprocity Resolution Killed.

St. Paul, Feb. 10.—The house, by a vote of 63 to 50, killed the resolution directing the Minnesota representatives in congress to work for the defeat of the Canadian reciprocity agreement.

Connecticut House Indorses Treaty. Hartford, Conn., Feb. 10.—Reciprocity with Canada was indorsed by the house, but in the senate the matter was tabled.

Mrs. J. E. Newcomb and little son, Marion, of Stanberry, were in Maryville Friday morning on their way to Bolckow to visit Mrs. Len Saunders.

WHEAT FUTURES ADVANCE

Upward Movement Retarded by Favorable Outlook for Reciprocity.

Chicago, Feb. 9.—Improved domestic call for cash wheat strengthened the option market today, and caused slowly rising prices from the start. The upward movement was retarded somewhat by belief on the part of many traders that a reciprocity enactment had become highly probable. Closing figures, however, were at a net advance, and left all other leading staples, too, at a level above last night—corn up $\frac{1}{8}$ to $\frac{1}{4}$ ¢; oats, $\frac{1}{8}$ to $\frac{1}{4}$ ¢; wheat—May, 95¢; July, 93¢; Sept., 91¢; Corn—May, 49½¢; July, 50¢; Oats—May, 31¼¢; July, 32¢; Sept., 32¢.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Possibly, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more ability, more controlling, more governing strength. Without this the heart must continue to fail, and the stomach and kidneys also have their same controlling nerves.

This clearly explains why as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffering heart distress. Dr. Shoop's Restorative—this powerful prescription—is alone directed to these weak and ailing nerve centers. It builds, it strengthens, it offers real, genuine heart help. If you would have strong hearts, strong digestion, strengthen those nerves—re-establish them as needed, with

HOUSE VOTES FOR 433 MEMBERSHIP

Census Reapportionment Bill
Passed by Lower Chamber.

NO STATE LOSES A MEMBER.

Eighteen Commonwealths Will Have One Additional Representative—New York Gains Six, Pennsylvania Four and Oklahoma Three.

Washington, Feb. 10.—The Democrats of the house, aided by a few Republicans, who declined to be bound by the party caucus, won their fight for an increased representation in the lower branch of congress under the census of 1910.

They voted down the Republican caucus bill to maintain the membership at 391, as at present, and then passed the original Crumpacker bill, fixing the membership at 433 on and after March 3, 1913. If Arizona and New Mexico should be admitted to statehood they would be given one representative each, bringing the total to 435.

The action of the house must be ratified by the senate. The house leaders believe the senate will follow the wishes of the lower branch.

By increasing the membership to 433 no state loses a member. The following states gain: Arizona, 1; Alabama, 1; California, 3; Colorado, 1; Florida, 1; Georgia, 1; Idaho, 1; Illinois, 2; Louisiana, 1; Massachusetts, 2; Michigan, 1; Minnesota, 1; Montana, 1; New Jersey, 2; New Mexico, 1; New York, 6; North Dakota, 1; Ohio, 1; Oklahoma, 3; Oregon, 1; Pennsylvania, 4; Rhode Island, 1; South Dakota, 1; Texas, 2; Utah, 2; Washington, 2; West Virginia, 1.

OKLAHOMA CITY WINS

State Supreme Court Declares It to Be Permanent Capital.

Oklahoma City, Okla., Feb. 10.—Sustaining the contention of the supporters of Oklahoma City in every point in the capital removal controversy, the state supreme court declared this city to be the permanent capital of Oklahoma.

The opinion of the court was written by Associate Justice Williams and was concurred in by Chief Justice Turner and Associate Justice Hays. They decided that the special session of the legislature at which the capital removal bill was passed was legal and that the legislature had the power to revoke the provision of the enabling act which made Guthrie the capital until 1913.

It was announced that the adherents of Guthrie will appeal to the United States supreme court on the enabling act proposition.
